5 Preamble

6 WHEREAS, Following extensive research and the issuance of a report by the
7 United States Environmental Protection Agency that clearly demonstrated an
8 alarming extent of degradation of the Chesapeake Bay, in significant part because of
9 prominent land use and growth patterns, the Critical Area Commission was created in
10 1984 in order to preserve and restore water quality in the State, to maintain valued
11 wildlife habitat, and to accommodate inevitable growth, and these same legislative
12 concerns were addressed in 2002 when the protections of the Critical Area Program
13 were expanded to include the Atlantic Coastal Bays; and

14 WHEREAS, The Critical Area, which comprises approximately 11% of
15 Maryland's land mass, includes the majority of the State's most ecologically fragile
16 and valuable properties; and

17 WHEREAS, From its inception, partnership between State and local
18 government has been a cornerstone of the Critical Area Program; and

19 WHEREAS, To date local Critical Area programs are operative in Baltimore
20 City, 16 counties, and 47 other municipalities, and Critical Area issues directly impact
21 at least seven State departments; and

22 WHEREAS, After nearly a quarter-century of operation, the Critical Area
23 Program has effectively influenced thousands of land use decisions, addressed and
24 minimized the adverse impacts of growth associated with hundreds of requests for
25 growth allocation, and represented a comprehensive effort between the State and local
26 governments to enforce a variety of water quality and habitat protection standards;
27 and

28 WHEREAS, Despite these efforts, additional measures are necessary in order to
29 enhance a cooperative land use and natural resource management program that will
30 restore the quality and productivity of the Chesapeake Bay, Atlantic Coastal Bays,
31 their tidal tributaries, and associated land-based ecosystems; and

32 WHEREAS, Particularly in light of the ongoing, accelerating decline of the
33 State's water quality resources and the loss of valuable shoreline areas due to erosion
34 and global warming, it is the view of the General Assembly that significant
35 improvements are in order at this time so as to accomplish Program preservation goals
36 more effectively while streamlining the Program and enhancing its efficiency and
37 predictability; and

1 WHEREAS, Experience has provided several strong indications of how to
2 ensure those Program improvements; and

3 WHEREAS, A key element that is fundamental to the ordinary business
4 operations of all other State agencies is the general authority to adopt regulations, but
5 the ability of the Critical Area Commission to do so was rendered unclear by the
6 March 10, 1987 Opinion of the Attorney General, 72 Md. Op. Atty. Gen. 14, 1987 WL
7 339797 (Md.A.G.), and it is the intent of this legislation to clarify and supersede that
8 Opinion; and

9 WHEREAS, It is likewise the intent of this legislation to strengthen and clarify
10 the reach of the Program where necessary to compensate for gaps in the current
11 structure, such as the institution of more meaningful enforcement mechanisms, and to
12 provide for fairer and more effective Program procedures around the State that will
13 continue to allow for flexibility in recognition of local partners' varying needs; now,
14 therefore,

15 SECTION 1. BE IT ENACTED BY THE GENERAL ASSEMBLY OF
16 MARYLAND, That the Laws of Maryland read as follows:

17 **Article - Business Regulation**

 5 CRITICAL AREA, AS DEFINED UNDER § 8-1802 OF THIS ARTICLE, FAILS TO
 6 COMPLY WITH:

7 1. THE TERMS OF A STATE OR LOCAL PERMIT,
 8 LICENSE, OR APPROVAL; OR

9 2. ANY STATE OR LOCAL LAW, AN APPROVED PLAN,
 10 OR OTHER LEGAL REQUIREMENT.

11 (2) THE CRITICAL AREA COMMISSION SHALL NOTIFY THE
 12 DEPARTMENT OF ANY TREE EXPERT WHO FAILS TO COMPLY WITH ANY
 13 REQUIREMENT UNDER PARAGRAPH (1)(II) OF THIS SUBSECTION.

14 8-1801.

15 (a) The General Assembly finds and declares that:

16 (1) The Chesapeake and the Atlantic Coastal Bays and their
 17 tributaries are natural resources of great significance to the State and the nation, **AND**
 18 **THEIR BEAUTY, THEIR ECOLOGICAL VALUE, AND THEIR ECONOMIC IMPACT ALL**
 19 **REACH FAR BEYOND ANY ONE LOCAL JURISDICTION;**

20 (2) The shoreline and adjacent lands, **PARTICULARLY THE BUFFER**
 21 **AREAS**, constitute a valuable, fragile, and sensitive part of this estuarine system,
 22 where human activity can have a particularly immediate and adverse impact on water
 23 quality and natural habitats;

24 (3) The capacity of these shoreline and adjacent lands to withstand
 25 continuing demands without further degradation to water quality and natural
 26 habitats is limited;

27 (4) Human activity is harmful in these shoreline areas, where the new
 28 development of nonwater-dependent structures or [the addition of impervious
 29 surfaces] **AN INCREASE IN LOT COVERAGE** is presumed to be contrary to the purpose
 30 of this subtitle, because these activities may cause adverse impacts, of both an
 31 immediate and a long-term nature, to the Chesapeake and Atlantic Coastal Bays, and
 32 thus it is necessary wherever possible to maintain a buffer of at least 100 feet
 33 landward from the mean high water line of tidal waters, tributary streams, and tidal
 34 wetlands;

1 (5) National studies have documented that the quality and
2 productivity of the waters of the Chesapeake Bay and its tributaries have declined due
3 to the cumulative effects of human activity that have caused increased levels of
4 pollutants, nutrients, and toxics in the Bay System and declines in more protective
5 land uses such as forestland and agricultural land in the Bay region;

6 (6) Those portions of the Chesapeake and the Atlantic Coastal Bays
7 and their tributaries within Maryland are particularly stressed by the continuing
8 population growth and development activity concentrated in the
9 Baltimore–Washington metropolitan corridor and along the Atlantic Coast;

10 (7) The quality of life for the citizens of Maryland is enhanced through
11 the restoration of the quality and productivity of the waters of the Chesapeake and the
12 Atlantic Coastal Bays, and their tributaries;

13 (8) The restoration of the Chesapeake and the Atlantic Coastal Bays
14 and their tributaries is dependent, in part, on minimizing further adverse impacts to
15 the water quality and natural habitats of the shoreline and adjacent lands,
16 particularly in the buffer;

17 (9) The cumulative impact of current development and of each new
18 development activity in the buffer is inimical to these purposes, **AND IT IS**
19 **THEREFORE IMPERATIVE THAT STATE LAW ~~BE SUFFICIENT TO PROTECT~~**
20 **IRREPLACEABLE STATE BUFFER RESOURCES FROM UNPERMITTED ACTIVITY;**
21 and

22 (10) There is a critical and substantial State interest for the benefit of
23 current and future generations in fostering more sensitive development [activity] **AND**
24 **MORE EFFECTIVE ENFORCEMENT** in a consistent and uniform manner along
25 shoreline areas of the Chesapeake and the Atlantic Coastal Bays and their tributaries
26 so as to minimize damage to water quality and natural habitats.

27 (b) It is the purpose of the General Assembly in enacting this subtitle:

28 (1) To establish a Resource Protection Program for the Chesapeake
29 and the Atlantic Coastal Bays and their tributaries by fostering more sensitive
30 development activity for certain shoreline areas so as to minimize damage to water
31 quality and natural habitats; and

32 (2) To implement the Resource Protection Program on a cooperative
33 basis between the State and affected local governments, with local governments
34 establishing and implementing their programs in a consistent and uniform manner
35 subject to State **AND LOCAL LEADERSHIP**, [criteria] **CRITERIA**, and oversight.

 11 **APPROVED PLAN IN ACCORDANCE WITH THE LOCAL CRITICAL AREA PROGRAM.**

12 (d) (1) In this subsection, “unwarranted hardship” means that, without a

15 (2) (i) **A LOCAL JURISDICTION SHALL PROCESS AN**
 16 **APPLICATION FOR A VARIANCE REGARDING A PARCEL OR LOT THAT IS SUBJECT**

30 (3) (i) An applicant has the burden of proof and the burden of

 32 this subsection.

33 (ii) 1. Based on competent and substantial evidence, a local

1 2. With due regard for the person's experience, technical
2 competence, and specialized knowledge, the written findings may be based on evidence
3 introduced and testimony presented by:

5 B. The local jurisdiction or any other government
6 agency; or

7 C. Any other person deemed appropriate by the local
8 jurisdiction.

9 (4) A variance to a local jurisdiction's critical area program may not be
10 granted unless:

11 (i) Due to special features of a site, or special conditions or
12 circumstances peculiar to the applicant's land or structure, a literal enforcement of the
13 critical area program would result in unwarranted hardship to the applicant;

14 (ii) The local jurisdiction finds that the applicant has satisfied
15 each one of the variance provisions; and

16 (iii) Without the variance, the applicant would be deprived of a
17 use of land or a structure permitted to others in accordance with the provisions of the
18 critical area program.

19 (5) **(I) WITHIN 10 WORKING DAYS AFTER ~~ISSUANCE~~ A WRITTEN**

28 **VIOLATION OF THIS SUBTITLE.**

29 **(II) A LOCAL JURISDICTION MAY NOT ACCEPT AN**
30 **APPLICATION FOR A VARIANCE TO LEGALIZE A VIOLATION OF THIS SUBTITLE,**
31 **INCLUDING AN UNPERMITTED STRUCTURE OR DEVELOPMENT ACTIVITY,**
32 **UNLESS THE LOCAL JURISDICTION ~~FIRST~~**

1 ~~1.~~ ISSUES FIRST ISSUES A NOTICE OF VIOLATION,
2 INCLUDING ASSESSMENT OF AN ADMINISTRATIVE OR CIVIL PENALTY, FOR THE
3 VIOLATION;~~AND~~

4 ~~2.~~ VERIFIES, THROUGH ON-SITE INSPECTION OR
5 ~~OTHER RELIABLE MEANS, THAT:~~

6 ~~A.~~ FULL COMPLIANCE WITH THE TERMS OF THE
7 ~~NOTICE OF VIOLATION HAS BEEN ACHIEVED, INCLUDING PAYMENT OF ALL~~
8 ~~ASSESSED FINES AND COMPLETION OF ANY REQUIRED MITIGATION; OR~~

9 ~~B.~~ A FINAL ADJUDICATION ON THE MERITS OF THE
10 ~~NOTICE OF VIOLATION HAS DETERMINED THAT A VIOLATION HAS NOT~~
11 ~~OCCURRED OR THAT THE FINAL ADJUDICATION HAS DETERMINED THAT A~~
12 ~~VIOLATION DID OCCUR AND THE PERSON HAS FULLY COMPLIED WITH THE~~
13 ~~TERMS OF THAT ADJUDICATION, INCLUDING FULL PAYMENT OF ANY PENALTIES~~
14 ~~AND COSTS THAT MAY BE ASSESSED.~~

15 (III) IF ~~THE~~ A FINAL ADJUDICATION OF A NOTICE OF
16 VIOLATION RESULTS IN A DETERMINATION THAT A VIOLATION HAS OCCURRED,
17 THE PERSON SHALL BE LIABLE FOR A PENALTY THAT IS TWICE THE AMOUNT OF
18 THE ASSESSMENT IN THE NOTICE OF VIOLATION, IN ADDITION TO THE COST OF
19 THE HEARING AND ANY APPLICABLE MITIGATION COSTS.

20 (IV) APPLICATION FOR A VARIANCE UNDER THIS
21 PARAGRAPH CONSTITUTES A WAIVER OF THE RIGHT TO APPEAL THE TERMS OF
22 A NOTICE OF VIOLATION AND ITS FINAL ADJUDICATION, INCLUDING THE
23 PAYMENT OF ANY PENALTIES AND COSTS ASSESSED.

24 (V) IF THE LOCAL JURISDICTION FINDS THAT THE ACTIVITY
25 OR STRUCTURE FOR WHICH A VARIANCE IS REQUESTED COMMENCED WITHOUT
26 PERMITS OR APPROVALS AND:

27 1. DOES NOT MEET EACH OF THE VARIANCE
28 CRITERIA UNDER THIS SUBSECTION, THE LOCAL JURISDICTION SHALL DENY
29 THE REQUESTED VARIANCE AND ORDER REMOVAL OR RELOCATION OF ANY
30 STRUCTURE AND RESTORATION OF THE AFFECTED RESOURCES; OR

31 2. DOES MEET EACH OF THE VARIANCE CRITERIA
32 UNDER THIS SUBSECTION, THE LOCAL JURISDICTION MAY GRANT ~~PROPOSED~~
33 APPROVAL TO THE REQUESTED VARIANCE.

34 ~~(VI) 1. WITHIN 10 WORKING DAYS AFTER ISSUANCE OF A~~

4 ~~2. THE COMMISSION SHALL REVIEW AND ISSUE A~~
5 ~~FINAL DECISION ON A PROPOSED LOCAL APPROVAL IN ACCORDANCE WITH~~
6 ~~PROCEDURES ESTABLISHED IN REGULATIONS ADOPTED BY THE COMMISSION.~~

7 [(5)] (7) This subsection does not apply to building permits or
8 activities that comply with a buffer exemption plan or buffer management plan of a
9 local jurisdiction which has been approved by the Commission.

10 [(6)] (8) Notwithstanding any provision of a local law or ordinance,
11 or the lack of a provision in a local law or ordinance, all of the provisions of this
12 subsection shall apply to, and shall be applied by, a local jurisdiction in the
13 consideration, processing, and decision on an application for a variance.

14 (e) (1) The Commission shall adopt by regulation on or before December
15 1, 1985 criteria for program development and approval, which are necessary or
16 appropriate to achieve the standards stated in subsection (b) of this section. Prior to
17 developing its criteria and also prior to adopting its criteria, the Commission shall
18 hold at least 6 regional public hearings, 1 in each of the following areas:

- 19 (i) Harford, Cecil, and Kent counties;
- 20 (ii) Queen Anne's, Talbot, and Caroline counties;
- 21 (iii) Dorchester, Somerset, and Wicomico counties;
- 22 (iv) Baltimore City and Baltimore County;
- 23 (v) Charles, Calvert, and St. Mary's counties; and
- 24 (vi) Anne Arundel and Prince George's counties.

25 (2) During the hearing process, the Commission shall consult with
26 each affected local jurisdiction.

27 (3) IN ACCORDANCE WITH ITS POWERS UNDER § 8-1806(A) OF
28 THIS SUBTITLE, THE COMMISSION MAY AMEND THE CRITERIA FOR PROGRAM
29 DEVELOPMENT AND APPROVAL ADOPTED UNDER PARAGRAPH (1) OF THIS
30 SUBSECTION.

31 8-1808.1.

1 (c) (1) When locating new intensely developed or limited development
2 areas, local jurisdictions shall use the following [guidelines] **STANDARDS:**

3 (i) Locate a new intensely developed area in a limited
4 development area or adjacent to an existing intensely developed area;

5 (ii) Locate a new limited development area adjacent to an
6 existing limited development area or an intensely developed area;

7 (iii) Locate a new limited development area or an intensely
8 developed area in a manner that minimizes impacts to a habitat protection area as
9 defined in COMAR 27.01.09, and in an area and manner that optimizes benefits to
10 water quality;

11 (iv) Locate a new intensely developed area or a limited
12 development area in a resource conservation area at least 300 feet beyond the
13 landward edge of tidal wetlands or tidal waters, **UNLESS THE LOCAL JURISDICTION**
14 **PROPOSES, AND THE COMMISSION APPROVES, ALTERNATIVE MEASURES FOR**
15 **ENHANCEMENT OF WATER QUALITY AND HABITAT THAT PROVIDE GREATER**
16 **BENEFITS TO THE RESOURCES;**

17 (v) **LOCATE NEW INTENSELY DEVELOPED AREAS AND**
18 **LIMITED DEVELOPMENT AREAS IN A MANNER THAT MINIMIZES THEIR IMPACTS**
19 **TO THE DEFINED LAND USES OF THE RESOURCE CONSERVATION AREA;**

20 [(v)] (VI) Except as provided in item [(vii)] (VIII) of this
21 paragraph, no more than one-half of the expansion allocated in the criteria of the
22 Commission may be located in resource conservation areas;

23 [(vi)] (VII) New intensely developed or limited development
24 areas [to be located in the resource conservation area] **INVOLVING THE USE OF**
25 **GROWTH ALLOCATION** shall conform to all criteria of the Commission and shall be
26 designated on the comprehensive zoning map submitted by the local jurisdiction as
27 part of its application to the Commission for program approval or at a later date in
28 compliance with § 8-1809(g) of this subtitle; and

29 [(vii)] (VIII) In Calvert, Caroline, Cecil, Charles, Dorchester, Kent,
30 Queen Anne's, St. Mary's, Somerset, Talbot, Wicomico, and Worcester counties, if the
31 county is unable to utilize a portion of the growth allocated to the county in items (i)
32 and (ii) of this paragraph within or adjacent to existing intensely developed or limited
33 development areas as demonstrated in the local plan approved by the Commission,
34 then that portion of the allocated expansion which cannot be so located may be located
35 in the resource conservation area in addition to the expansion allocated in item [(v)]
36 (VI) of this paragraph. A developer shall be required to cluster any development in an
37 area of expansion authorized under this paragraph.

1 (2) A LOCAL JURISDICTION MAY USE A STANDARD THAT VARIES
 2 FROM THE STANDARDS REQUIRED UNDER PARAGRAPH (1)(I) AND (II) OF THIS
 3 SUBSECTION IF:

4 (I) THE ALTERNATIVE STANDARD IS CONSISTENT WITH
 5 THE JURISDICTION'S ADOPTED COMPREHENSIVE PLAN; AND

6 (II) THE COMMISSION HAS APPROVED THE ALTERNATIVE
 7 STANDARD AS PART OF THE LOCAL PROGRAM.

8 (3) IN REVIEWING MAP AMENDMENTS OR REFINEMENTS
 9 INVOLVING THE USE OF GROWTH ALLOCATION, THE COMMISSION SHALL
 10 CONSIDER THE FOLLOWING FACTORS:

 12 COMPREHENSIVE PLAN AND WHETHER THE GROWTH ALLOCATION WOULD
 13 IMPLEMENT THE GOALS AND OBJECTIVES OF THE ADOPTED PLAN;

 23 IS:

24 A. TO BE SERVED BY A PUBLIC WASTEWATER
 25 SYSTEM;

26 B. TO HAVE AN ALLOWED AVERAGE DENSITY OF AT
 27 LEAST 3.5 UNITS PER ACRE, AS CALCULATED UNDER § 5-7B-03(H) OF THE
 28 STATE FINANCE AND PROCUREMENT ARTICLE; AND

29 C. FOR A NEW INTENSELY DEVELOPED AREA THAT IS
 30 GREATER THAN 20 ACRES, TO BE LOCATED IN A PRIORITY FUNDING AREA, AS
 31 DESCRIBED UNDER §§ 5-7B-02(1) AND 5-7B-03 OF THE STATE FINANCE AND
 32 PROCUREMENT ARTICLE; AND

1 D. TO HAVE A DEMONSTRABLE ECONOMIC BENEFIT
 2 TO THE AREA; AND

4 through regulations adopted by the Commission; and

5 (iii) Identify areas where there appear to be inconsistencies
6 between the Statewide Base Map and the local jurisdiction's Critical Area map;

7 (6) In accordance with regulations adopted by the Critical Area
8 Commission, each local jurisdiction shall provide public notice of changes anticipated
9 in that jurisdiction as a result of the transition from the State wetlands maps to the
10 Statewide Base Map and provide for a public hearing and public comment regarding
11 those changes;

12 (7) Following resolution of any inconsistencies and as appropriate to
13 its form of local government and in conformance with all applicable requirements,
14 each jurisdiction with an approved Critical Area Program shall:

15 (i) Formally amend its program by adopting the Statewide
16 Base Map for that jurisdiction, including the shoreline and landward boundary of tidal
17 wetlands, the digitally generated and georeferenced 1,000-foot Critical Area
18 boundary, and all applicable Critical Area designations as its official Critical Area
19 Map; and

20 (ii) Within 90 days of formally amending its program under
